

All About the Connecticut Department of Transportation (CTDOT)

About Us

The Connecticut Department of Transportation (CTDOT) is a vital state agency responsible for the development, maintenance, and regulation of transportation systems across Connecticut. Celebrating its 130th Anniversary in 2025, CTDOT's mission is to improve lives through transportation.

Our Commissioner

Commissioner Garrett Eucalitto, who also serves as president of American Association of State Highway and Transportation Officials (AASHTO), leads the CTDOT team of more than 3,300 employees. The agency is organized into several bureaus and offices, such as the Bureau of Engineering and Construction, Bureau of Policy and Planning, and Bureau of Public Transportation, each focused on specialized areas of transportation management and innovation.

Our Purpose

CTDOT oversees a broad range of transportation modalities including highways and roadways, public transit, ridesharing, passenger rail systems, bicycle and pedestrian initiatives, and the nation's historical gems, the Rocky Hill-Glastonbury and the Chester-Hadlyme Ferries. The agency manages the planning, engineering, design, construction, and maintenance of Connecticut's highway infrastructure, including over 21,000 lane miles and more than 8,000 roadway bridges and structures. In public transportation, CTDOT operates and supports services like *CTtransit*, *CTfastrak* (the number one rated Bus Rapid Transit System in the United States), and the *CTrail* commuter rail network, including the Hartford Line and Shore Line East. Through its commitment to the people of Connecticut, accountability, and innovation, CTDOT aims to deliver a transportation system that optimizes mobility, supports economic vitality, enhances quality of life for everyone and supports the state's long-term goals.

Active/Upcoming Initiatives and Services

Funding

CTDOT has an annual budget of nearly \$3 billion, with funding from a combination of state resources, federal programs and grants, and bond issuances.
