The CTDOT Employee Newsletter

January 2024 Vol. 5

## A Message from the Commissioner

*Commissioner Eucalitto at the Winter Weather Press Conference on January 5.*

This month marks the end of my first year as Commissioner of CTDOT. Looking back I am proud of all the work we accomplished together. We received record amounts of funding and overcame staff, equipment, and material shortages left over from the COVID-19 pandemic. We also made major inroads into improving the safety of the people of Connecticut and our employees.

The year 2022 was our deadliest in almost three decades – totaling 368 fatalities. In 2023, CTDOT stepped up to create new policy and programs aimed at making our streets and work zones a safer place to be.

**Know the Zone**, a work zone speed safety camera pilot program launched in April. The pilot wrapped up December 31 and looking at the preliminary data – speed cameras work. Drivers slowed down, and our employees and contractors felt safer when the cameras were present.

In August we implemented new **Complete Streets** design criteria that will be incorporated into all projects. This expansion of our existing policy includes critical focus to improve pedestrian, motorists, bicyclists, and public transportation user safety.

In **Engineering and Construction** and **Highway Operations** we performed multiple Safety Improvement Projects around the state and they helped. In 2023, traffic fatalities fell by almost 12% for a total of 323. This number is still unacceptable and we need to do more to reduce it to zero. We can make safety for our staff and the public our guiding principle in 2024.

A new legislative session also starts next month. I plan to make safety a priority in all of our plans and proposals. Making the work zone speed safety program permanent is an example of one of the many commitments I am making to improving safety.

Continuing with my commitment to transportation, I'd like to mention that I've taken on the role of Vice President of AASHTO, and President of NASTO. My goal is to champion innovative solutions and best practices that will not only benefit the broader transportation community, but also directly contribute to the advancement and efficiency of CTDOT operations.

Finally, a special thanks to all of our employees for all their hard work on our first significant snowstorm since January of 2022.

Keep up the good work and drop me a line at [Contact the Commissioner](#) with a comment, suggestion, or idea anytime.

Thank you,

*Garrett*

## Remembering Our Heroes: Honoring Fallen DOT Workers Across the State

In a tribute dedicated to the CTDOT employees who have lost their lives while maintaining Connecticut’s roadways in service of the State of Connecticut, the **Bureau of Highway Operations, Office of Maintenance (BHO)** has undertaken a heartfelt endeavor. The BHO has forging a meaningful memorial that will stand tall across Connecticut. This memorial now stands at all seven Rest Areas, 23 Service Plazas, and each CTDOT District Office including Headquarters.

Led by a team of passionate individuals including **Paul Rizzo**, **Andy Morrill**, and **Jackie Primeau**, a design was crafted to honor CTDOT workers who tragically lost their lives while carrying out their duties. This endeavor was brought to life by the skillful craftsmanship of **Dave Cruz** and his dedicated team at the **Sign Shop**.

Danbury Rest Stop

**Christopher Troutman**, TM3 Loader Operator and **Michael Snow**, TM2 at the Stonington Rest stop

This memorial sign serves as a powerful reminder of the sacrifices made by our fallen workers. Beyond honoring their legacy, it also endeavors to resonate with the public, emphasizing the critical need to exercise caution and reduce speed when navigating work zones.

As we stand together in honoring these heroes, let us also reflect on the vital importance of fostering a safe environment for those who continue to work tirelessly on our roads. Their memory will forever remain a guiding light, reminding us to tread carefully and acknowledge the immense value of every life.

## Upcoming Career Fairs

# WTS Transportation Mini-Series: Empowering and Advancing in the World of Transportation

CTDOT team at WTS Mini Series on October 17, 2023

On October 17, the Connecticut Department of Transportation (CTDOT) made its presence felt at the annual WTS Transportation Mini-Series hosted by Central Connecticut State University. This event drew nearly 90 CTDOT staff members from various departments, all eager to engage in informative discussions. The morning's plenary session kicked off the event as we heard from women leaders in Connecticut at the federal, state, municipal

and private sector levels including CTDOT's Deputy Commissioners **Laoise King** and **Karen Kitsis**. CTDOT's Chief of Staff **Lora Rae Anderson** was on a panel discussing the *Art of Performance-Based Outreach*. Two CTDOT members, **Alicia Leite** and **Sam Savvidou**, led a compelling panel discussion on boosting women's influence and presence in the transportation industry, a topic that resonates deeply with those striving for greater diversity. Meanwhile, **Stephen Hall** contributed insights during a panel discussion on **Complete Streets**, emphasizing our commitment to creating safe and accessible roadways for all. **Katie Hedberg** and **Marissa Pfaffinger** represented CTDOT in the "Meet the Units" session, discussing the Americans with Disabilities Act with the **Engineering Coordination Unit** and **Project Development Unit**, underscoring our dedication to inclusive transportation development.

The event covered a broad range of topics, highlighting the WALK Bridge and Norwalk, Perfect Together: *How a Major Transportation Project Affects a Connecticut City* where the audience heard from a panel comprised of the consultants, City of Norwalk and Deputy Commissioner King. Other topics included *the Engineer as an Expert Witness*, *Electronic Vehicles Electrifying the Future*, *Expanding Transportation Projects for Equity Enhancement* and *Community Empowerment/Connection* and *Revolutionizing Industries and Infrastructure with Unprecedented Highs in Federal Funding for Transportation*. These discussions broadened our knowledge and understanding of the dynamic transportation industry.

Thank you to our **Staff Development Team** for coordinating the registration process for this immensely popular annual event.

For over 30 years, WTS has been championing the advancement of women in the transportation sector, and this event allowed CTDOT staff to network, learn, and draw inspiration. It showcased our commitment to diversity, inclusion, and excellence in transportation.

The WTS Transportation Mini-Series not only brought our staff together but also reaffirmed our dedication to making transportation accessible, safe, and innovative for all Connecticut residents. It was a day of inspiration, collaboration, and progress in the transportation field.

If you would like to participate in planning efforts or volunteer at the 2024 WTS Transportation Mini-Series please coordinate with [Ariana.Antonucci@ct.gov](mailto:Ariana.Antonucci@ct.gov).

## Blood Drives

Our November 8 blood drive at Newington Headquarters was nothing short of incredible! Your overwhelming support and commitment to this cause truly made a difference. We surpassed our goal by collecting an astounding 30 pints of blood, exceeding expectations and demonstrating our dedication to giving back to the community.

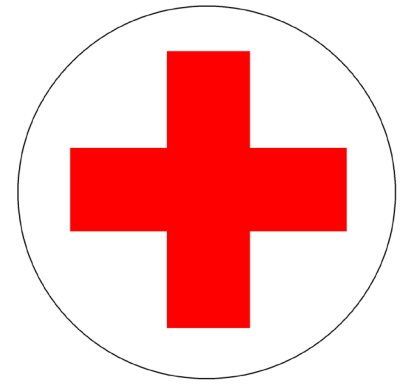

Your enthusiasm and willingness to contribute were unwavering as once again, this was a “sell out.” Your efforts showcase our collective spirit of generosity and solidarity, reminding us of the impact we can make when we come together for a common cause.

A special thank you goes out to **Ashley Booth** and her committee members:

**Travis Busch, James Barrows, Laura Baum, Simon Dacres, Melanie Goodin, Aaron James, Jennifer Koziel, Anita Steeves, Amy Whitehouse, and Theresa Wilson.** Also, a shout out to **Mary Spada, Mike Murphy, and Tom LeConche** from Properties & Facilities for their continued help with all the physical logistics. The dedication and hard work of everyone involved was instrumental in the success these drives.

Mark your calendars! Our upcoming drives on February 14 and May 8 are just around the corner. Be sure to keep an eye out for these opportunities, as spots tend to fill up quickly.

Thank you once again for your incredible support and participation. Let’s continue to make a meaningful difference in the lives of others through our ongoing commitment to these vital blood drives.

## CTDOT Hosts State Smart Transportation Initiative 2023 Community of Practice

The CTDOT was honored to be the state host of the 2023 Community of Practice Meeting on Transportation, presented by the State Smart Transportation Initiative (SSTI).

Over two days, transportation professionals, experts, and decision-makers from across the nation converged to exchange knowledge, foster collaboration, and engage in forward-thinking discussions. This event was more than a gathering; it was a catalyst for shaping the future of transportation in our country.

What made our hosting of this event truly exceptional was the active participation of CTDOT staff in offering firsthand experiences to our guests.

The first day began with **Lisa Rivers** and the **CTDOT Transit Team** giving a bus tour showcasing **CTfastrak** and several stations.

**Commissioner Eucalitto** and guest for the national State Smart Transportation Initiative visit **CTfastrak** in November.

The group then went on to visit Bristol where **Anna Bergeron** and her team from **Strategic Planning & Projects Unit** walked the group through the quick-build road safety project which provided an up-close look at our state's transportation initiatives and highlighted how the CTDOT is actively working with towns on these projects.

Friday, **Kevin Burnham** and his team from **Consultant Design – Major Highways** hosted a walking tour of downtown Hartford which was equally insightful, shedding light on both the challenges posed by the highway and the ongoing efforts to revitalize and reconnect the city.

Later in the day, **Carlo Leone**, Special Advisor to the Commissioner, led a group discussion on the challenges of building and maintaining the transportation workforce. This exchange will undoubtedly fuel innovative approaches and drive positive change in the transportation sector.

This national conference was attended by officials from Hawaii, Washington, Delaware, California (CalSTA), Vermont, Minnesota, Massachusetts, Maryland, Colorado, Illinois, and Arizona. Their participation underscored the importance of collaborative efforts in shaping the future landscape of transportation. As hosts, we not only shared our initiatives but also learned from the diverse perspectives and experiences of our peers.

## ADA 33<sup>rd</sup> Anniversary Celebration Event

The Connecticut Department of Transportation (CTDOT) partnered with the Federal Highway Administration (FHWA), Women's Transportation Seminar Connecticut Chapter (WTS CT), Institute of Transportation Engineers (ITE CT) and the UConn Training and Technical Assistance Center (T2 Center) to celebrate the **Americans with Disabilities Act (ADA)** 33<sup>rd</sup> Anniversary on Wednesday, July 26 at the Meriden Green.

Individuals who attended had the opportunity to learn from professionals in the industry planning and designing pedestrian facilities as well as initiatives going on at the local, state, and federal levels. Speakers included FHWA CT Division Administrator **Amy Jackson-Grove** and CTDOT Commissioner **Garrett Eucalitto**. In addition, residents from Greenwich and Stamford shared their experience with their guide dogs and expressed admiration and commendation for the vast ADA improvement both within the City of Meriden and throughout the State.

From left to right is **Nick Campbell** from FHI Studio, **Samantha Savvidou**, **Katie Hedberg** and **Nicole Detora** from FHI Studio.

**Commissioner Eucalitto** and **Katie Hedberg** (both far left) with Stamford and Greenwich residents and their guide dogs.

Following the speaking portion of the event there were table exhibits highlighting different groups and activities.

Table exhibits included CTDOT's **Customer Experience Unit** who explained the first Customer Experience Action Plan to improve public transportation in the State and puts customer priorities at the forefront. The **ADA Engineering Coordination Unit** provided guidance for inspecting sidewalks and curb ramps as well as a brief overview into some the other ADA responsibilities of the unit such as ADA transition plans. WTS CT had a table on student outreach and inclusivity with the Barbie Streetscape prototype highlighting Barbie and Ken in wheelchairs.

If you would like to participate in the planning or volunteering for the 2024 ADA Anniversary Event, please reach out to **Katie Hedberg**, [Katherine.Hedberg@ct.gov](mailto:Katherine.Hedberg@ct.gov)

# FHWA Every Day Counts Initiative Workshop Held at CTDOT

This November CTDOT hosted the FHWA EDC-6 Digital As-Built Northeast Regional Workshop in the Newington Headquarters. A total of 13 State agencies as well as FHWA, contractors and technology providers sent representatives to the workshop.

## Visiting States:

Maine  
Maryland  
Massachusetts  
New Hampshire  
New Jersey  
New York  
Pennsylvania  
Vermont  
Illinois  
Indiana  
Michigan  
Utah

**William Pratt** (CTDOT, AEC Applications Principal Engineer), **Greg Ciparelli** (CTDOT Chief Data Officer) and **Elaine Richard** (CTDOT AEC Applications CAD/BIM Specialist) served as subject matter experts along with PennDOT, UDOT and NYSDOT sitting on panels and helping with group discussions.

CTDOT put on an hour-long demo showcasing the work done on the Traffic Signals Asset inventory.

- Signal Asset Development / History - Gregory Ciparelli (CDO)
- Signal Web App Functionality - Kenneth Lussier (Traffic Engineering)
- Digital Delivery Process - Mathew Calkins (AEC Applications)
- CAD/BIM Intelligence/Technology - Elaine Richard (AEC Applications)
- CAD to GIS Transformation Process - Henok Abdissa (AEC Applications)
- Inspection Technology - Greg Sardinskas (AEC Applications)

Representatives from units across our department also attended, including AEC Applications, Bridge Design, Highway Design, Traffic Engineering, Illumination, Survey, Construction Operations, District Construction, Planning, GIS and Asset Management. The conference brought over 90 attendees together to gain a common understanding of Building Information Modeling (BIM) infrastructure and innovative processes of digital delivery. BIM for infrastructure is a collaborative work method for structuring, managing, and using an agency's enterprise-wide data and information for transportation assets throughout

*Team CTDOT at Every Day Counts*

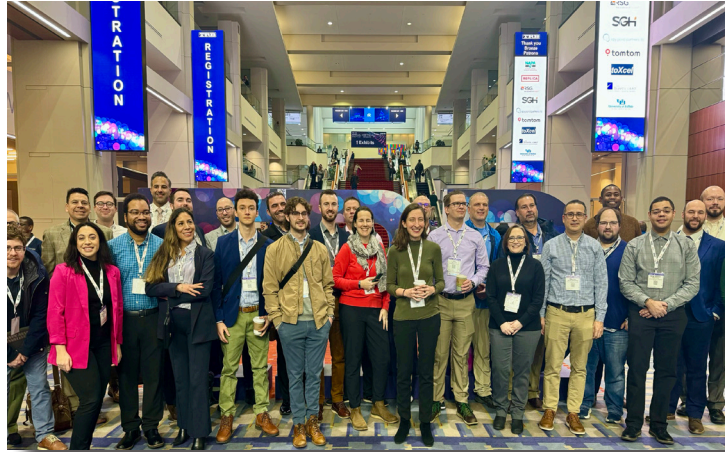

their life cycles. BIM integrates and leverages digital information found in surveys, 3D design agencies towards greater collaboration models, eConstruction data, georeferenced assets and GIS, to bring profound improvements for project delivery and lifecycle data management. The data capabilities are envisioned to better connect the silos within agencies towards greater collaboration and real-time, fact-based decision-making in managing our highway assets. BIM is about "liberating" data from siloed systems and making it available in an automated way to anyone who needs it when they need it.

There are several national groups and committees leading the way for this innovation including:

- FHWA Resource Center, Office of Innovation Implementation, Construction and Project Management Team
- AASHTO JTCEES (Joint Technical Committee on Electric Engineering Standards)
- AASHTO J-STAN (Joint Subcommittee on Data Standardization)
- Pooled fund BIM for Infrastructure (20 States)

FHWA has developed a National Strategic Work Plan (NSWP) for BIM implementation to assist in the advancement of a more concerted and effective U.S.-wide deployment by all stakeholders. This workshop served as a mechanism to advance the activities that were charted out in the NSWP and EDC-6 e-Ticketing and Digital As-Builts.

# TRB 2024 Conference, Team CTDOT

*TeamDOT at the TRB conference*

**Dan Baker, Samantha Savvidou and Commissioner Eucalitto.**

**Don Remson, Commissioner Eucalitto, Andy Morrill, Laura Baum, Jacob Booth, Eliana Carlson, and Samantha Savvidou.**

**William Hogan and Cayla Jones** behind the table, with **Theo Smigelski** in the yellow shirt, **Mauricio Garcia-Theran** in the gray.

MoDOT **Patrick McKenna**, PRDOT **Eileen Vélez Vega**, **Commissioner Eucalitto** and WisDOT **Craig Thompson** participate in panel discussion.

## GARAGE VISITS

During November and December, **Commissioner Eucalitto** visited garages in Cornwell & North Canaan (11/3), Canterbury & Plainfield (11/9) and Stratford (12/7).

*Pictured left to right: Jose Alvarado, Dauly Franco, Michael Hyatt, and Victor Diaz.*

*Brian Volle, John Waugh, Laurel Collins, Robert Tetreault, Joe Falck (in yellow), Paul Rizzo, Jim Chupas, Rich Reagan, Commissioner Eucalitto, Joseph Cale (lower right hand corner).*

## HIGH SCHOOL INTERN PROGRAM

*CTDOT's first group of High School Cooperative Education Interns*

CTDOT is excited to announce that our first group of High School Cooperative Education interns are currently working in the **Bureau of Highway Operation**. These positions are assigned to assist in critical areas of repair and machine shop functions, as part of the CTDOT's workforce development initiative, targeting and employing, junior and senior high school students with educational enrollment in hard to recruit for trades areas. CTDOT **Human Resources** and **Bureau of Highway Operations** staff worked with the Connecticut Technical Education and Career System (CTEC) High Schools, the Department of Administrative services, the Depart-

ment of Labor, and Office of Policy and Management to develop the intern program and establish positions. The initial group of interns hired December 15, 2023, include one Intern who is working at our **Rocky Hill Machine Shop** and eight (8) **Repair Shop** interns who are working in our **Colchester, Milford, Putnam, Rocky Hill, and Waterbury Repair Garages**. The interns are from various technical high schools including; Ellis Tech (Danielson), Bullard -Havens (Bridgeport) , Kaynor (Waterbury), Cheney (Manchester), Platt (Milford), and Windham (Willimantic) Technical High Schools.

# FUNDRAISERS

## Stuff a Bus Toy Drive

Trooper Lavoie with K-9 London, Trooper Riley, Trooper Goddard and Lt. Utermarck, **Commissioner Eucalitto**, **Diana Palmer**, **Ben Limmer**, **Greg Tower** and **Scott Willis** at the Stuff A Bus Toy Drive with CT State Troopers and CTtransit

## Silent Auction 2023

Jason Jakubowski, CT Foodshare President (center) with (left to right) Chief of Staff **Lora Rae Anderson**, Policy and Planning Bureau Chief **Kim Lesay**, Commissioner **Garrett Eucalitto** and Deputy Commissioner **Karen Kitsis** at the Silent Auction to benefit CT Foodshare. There were a total of 28 baskets made between CTDOT employees.

## Angel Tree In District 2

The teams from District 2 Engineering/Construction and Highway Operations joined forces to take part in the Salvation Army's Angel Tree initiative this year. Because of their incredible generosity, District 2 was able to fulfill the Christmas wishes of 25 children.

## WHAT'S NEW?

CTDOT's **Derek Brown**, Call Before You Dig Board President

### Derek Brown Named President of the CBYD Board

We are thrilled to announce that one of our very own Connecticut Department of Transportation employees, **Derek Brown**, is now the President of the Call Before You Dig Board.

Derek is a Project Engineer in the CTDOT Utilities Section. For the past 12 years, Derek has been the face of CTDOT on the Call Before You Dig (CBYD) Board of Directors. Recently, he stepped into the shoes of president, succeeding Claudia Kersten, a trailblazer who was not only the first CTDOT representative on the board, but also the first female president.

CBYD is a crucial organization—it's a nonprofit group overseeing a state-wide, one-call notification system. Their job? Ensuring anyone planning to dig notifies all relevant parties about underground facilities to prevent accidents. As president, Derek's plate is full. He's the architect of monthly agendas for board meetings and chairs those discussions.

Additionally, he steers the executive committee's monthly gatherings, appoints committees for different CBYD functions, and collaborates with regulators to keep things compliant and educational. Derek doesn't stop there—he's also on the hunt for federal grants to better CBYD services, liaises with the call center vendor, and is a regular at industry events, from expos to international conferences about one-call systems.

But Derek's role isn't just about board meetings and conferences. As the CTDOT representative, he ensures that CBYD receives accurate mapping and information about the CTDOT's underground facilities. He's the go-to person for solving any CBYD issues related to these facilities.

For more information about the Call Before You Dig program and safe excavation practices, please visit [cbyd.com](http://cbyd.com).

CTDOT's **Greg Ciparelli**, AASHTO Data Management & Analytics Chair

### Greg Ciparelli Named AASHTO Data Management & Analytics Chair

As the Chair of AASHTO's Committee on Data Management and Analytics, Greg would like to progress on all six of the committee's identified goals from the strategic plan, but will specifically focus on supporting member agencies in their efforts to recruit, retain, educate, build capacity, and support skill development related to all aspects of data management and analytics. Highly trained, enthusiastic, and well-supported personnel are the clearest path towards alignment with the committee's core data principles, adopted in 2013, and even more relevant in today's data-driven environment.

# CTDOT Kid’s Artist Showcase

## Celebrating Creativity

In the heart of CTDOT, the holiday spirit came alive through vibrant strokes and imaginative creations through the Art in the Atrium program. **Luis Alfonzo**, the visionary behind the initiative, orchestrated a month-long extravaganza, ‘The Holiday Showcase,’ unveiling the artistic prowess of the children of CTDOT employees, all aged 13 and under.

This year’s theme, ‘Pet Portraits,’ transformed the atrium into a show of adorable and expressive artwork. With pets being an inseparable part of many lives, the theme resonated deeply, inviting everyone to celebrate the furry, feathery, and scaly friends that bring boundless joy.

The exhibit was a testament to the budding talent nurtured within CTDOT families, with 29 young Picassos participating. From playful puppies to majestic cats, and even a few surprising interpretations of monkeys and birds, each artwork captured the unique bond between a child and their beloved pet or favorite animal.
